CAPABILITIES

Business Support Services

We provide our customers with the support services required for the successful completion of process, program, or project requirements. This includes administrative, emergency management, facility operations, finance and accounting, health information, and quality control support services.

- **Department of Education (ED)** – ATC provides ED with moving services, furniture installation, warehouse management, inventory tracking, maintenance and repairs, and facility help desk support, for approximately 3,500 employees and four buildings in the Washington, DC metropolitan area.
- **U.S. Air Force** – ATC supports the Air Force CE2T2 Program, providing Planning, Programming, Budgeting, and Execution (PPBE) subject matter expertise to the AF/A3T and AF/A3TI Divisions.

Information Technology (IT) Support Services

Our personnel are skilled in all aspects of IT, including beta testing, independent verification & validation, information assurance, cloud solutions, cyber security, help desk support, asset management, and technology assessments.

- **Department of Labor (DOL)** – ATC provides data center consolidation support which includes identifying requirements, designing and building out the initial data center core network, laying out the technical specifications, installing DOL hardware and software including new and virtualized components, prepping and moving the equipment, installing, testing and handing it off to the new Operations Team.
- **Department of Labor (DOL)** – ATC assists in the seamless and timely cloud migration for all DOL Agencies.
- **Office of the Chief Technology Officer (OCTO)** – ATC assists in the departments data transformation initiatives to aid in eliminating redundancies, outdated processes, and benchmarking data categorization, storage and utilization.
- **FEMA Tririga Real Estate Management System (TREMS)** – ATC provides direct experience with Federal Real Property Initiative requirements and the implementation of those requirements using IT solutions. We provide technical support, develop reporting and data analysis functionality in Tririga, train Tririga users, manage user access permissions and system notifications, develop dashboard views and system reports, and create enhancements and modifications to make TREMS and data reporting more effective.

Advisory & Assistance Services (A&AS)

ATC's A&AS services include full acquisition lifecycle support, business process improvement, engineering, program management, and strategic planning. We have former DAWIA Level III Contracting Officers, PMPs, and CPCMs on staff.

- **Air Force Support Services BPA** – ATC provides acquisition support, administration support, and secretariat support to the Secretary of the Air Force Office of Business Transformation (SAF/MG), Headquarters Air Force (HAF), and Space Force (SP) within the Pentagon.
- **Department of Justice (DOJ)/Federal Bureau of Investigation (FBI)** – ATC provides full lifecycle acquisition support to the FBI. We support acquisition program teams, draft acquisition plans and strategies, and maintain contractual documents for construction, facility, and O&M contracts.
- **Defense Intelligence Agency (DIA)** – ATC provides DIA with acquisition and business architecture requirements in support of the Document and Media Exploitation (DOMEX) collection, analysis, reporting program. We also support the development and maintenance of IT business capabilities.
