

CAPABILITY STATEMENT

Ginisis Group Inc.

GINISIS GROUP

IT SOLUTIONS | SOFTWARE DEVELOPMENT

Our mission is to provide top technology that will enhance technologies and automation while providing top talent to a complete solution.

About Us

GGI is an 8(a) acquisition and software/engineering firm that empowers businesses, government, and commercial organizations to perform at their highest capability. GGI specializes in utilizing engineering principles and custom software technology to improve efficiencies, control cost and maintain schedule. Agile Ax, a GGI proprietary software tool, is an innovative business intelligence suite of software tools that uses visualization and infographics to present data analytics. Our talent includes Engineers, Software Developers, Information Technology/Security Professionals, Lean Six Sigma Black Belts, Risk Managers and Knowledge Principals.
