MACHINE LEARNING

zCORE KEY HIGHLIGHTS

Expert-level SME key personnel with 48+ years of experience supporting the VA.

Driving VA's FMBT modernization, launching the 2024 CWS Wave with 1,600+ new users onboarded, 1,200+ updated, and actively supporting VBA and VHA Waves for seamless transformation.

Developed and delivered the G1 application to USSF in 46 days, achieving Certificate to Field in 41 days - over 50% faster than the typical 3-4 month timeline.

Support 9,000+ DoD users with our products and a 5 out of 5-star rating.

Supported Agile Software development and operations for developer.-va.gov and the Lighthouse VA benefits and appeals APIs.

Developed zCript AI, an AI-powered transcription tool that automates medical documentation, reduces documentation time by 50%, achieves 95% transcription accuracy, and integrates with VA systems.

Won the 2023 VA FSC Machine Learning Data-Thon, developing a predictive model with Azure Databricks, Python, and SQL to forecast undelivered orders, integrating API-based decision-tree insights and ETL-ready data for deployment across VA Stations, VISNs, and CPACs.

Established VBA's first Data Governance Council, aligning data with VA Directive 0900 and enhancing stewardship through DAMA-DMBOK best practices, while also supporting VBA data quality efforts.

DIFFERENTIATORS

- **Veteran-Led Leadership** and operational support forge a strong connection and deep empathy with VA's goals and objectives.
- **VA Experience, Knowledge, and Understanding** enables effective navigation, anticipation, and tailored solutions with a comprehensive understanding of VA's architecture, business processes, and legacy systems.
- **VA and Federal IT-Experienced Contractor with demonstrated performance and delivery** of acquisition strategies offers efficient contractor integration, VA project management, contract execution, and successful outcomes.

PAST PERFORMANCE

VA Financial Management Business Transformation (FMBT): zCore plays a pivotal role in supporting VA's FMBT Interfaces, Data Cleanse, and Conversion (ID&C) initiative supporting the modernization integration and transition of financial systems, ensuring seamless functionality across the VA enterprise.

DoD Guardian One (G1): zCore designed, developed, and optimized the G1 application, integrating Agile methodologies, Human-Centered Design (HCD), and DevSecOps to deliver secure, user-centric solution on Cloud One infrastructure for Guardians.

Health IT Sector: zCore partnered with a Top 10 Health IT provider to develop IT strategies for Federal Agencies, driving efficiency, innovation, and effective solutions.

Commercial / Private Sector: zCore developed business architecture, requirements, and technology strategies for a global advisory firm, delivering impactful solutions for the VA and strengthening the firm's trusted partnership.

FISCAL YEAR '24 STATISTICS

“As combat Veterans who have served, worked within the VA, and deliver mission-critical solutions for the DoD and VA, we understand the full Veteran journey—from service to relying on VA care. This drives our commitment to empower Veterans every step of the way.”
