

## **ASRC Prime Constructors**

ASRC Prime Constructors, LLC (APC) is a general contractor operating primarily in the government sector, with emphasis on federal clients such as the U.S. Army Corps of Engineers (USACE), U.S. Air Force (USAF), and Missile Defense Agency (MDA) in Hawaii, Alaska, and the Continental United States, and select international markets. As an 8(a)-program participant we offer unique solutions for the most complex government challenges. APC is one of five operating subsidiaries within ASRC Construction Holding Company, the parent company for all construction subsidiaries operated by the Arctic Slope Regional Corporation, an Iñupiat-owned Alaska Native Regional Corporation, and the largest private employer in Alaska.

Our firm typically self-performs all trades within our technical capability, including civil, concrete, structural steel erection, wood framing, pre-cast concrete tilt-up, siding, roofing, doors/windows, equipment installation, finish carpentry, and architectural casework. In addition, APC provides extensive procurement, safety, and logistics experience throughout Alaska and beyond. For scopes that fall outside of our capabilities, we regularly work with a trusted group of proven specialty subcontractors.
