OUR CAPABILITIES

- **Medical and Scientific Research**
- **Medical and Social Services**
- **Telehealth Advisory and Technical Assistance**
- **Data Analytics, Health Informatics, and Data Science**
- **Business Process Improvement and Reengineering**
- **Programmatic Management**
- **Specialized Information Technology Programming**
- **Administrative Support**

OUR DIFFERENTIATORS

- **Medical and Scientific Research.** Our scientists, researchers, epidemiologists, and clinicians provide leading healthcare expertise and services where they are needed most, discovering breakthroughs in diagnoses and treatments.
- **Business Process Improvement.** Six years' experience successfully synchronizing CPI Deployment activities in support of a Major Army Command, including Program Oversight, LSS Training and Certification, Program Analysis, Organizational Assessment (Baldrige), process analysis, process design, and process improvement.
- **Telehealth Program Expertise.** We offer staff knowledgeable in Department of Defense (DoD) medical-specific functional requirements and best-in-class industry capabilities in advanced mobile and remote technologies for clinical care service delivery and workflow improvement.
- **Program management approach focuses on achieving measurable results and outcomes.** Our staff delivers measurable results by assisting clients in defining expected business benefits and associated performance measures, establishing common business practices between projects while enlisting the help of the right SMEs to drive integration, following industry best practices in project management to facilitate decision making, and getting buy-in from key stakeholders to facilitate organizational change management.
- **Professional staff with experience working within the Military delivering quality solutions.** We offer staff with domain-specific subject matter expertise to ensure what is delivered meets our client's objectives.
- **Engaged Corporate Leadership.** We look at our contracts as a long-term partnership – We are thinking about the value we can add down the road and not just today.

OUR PARTNERS
