

50. Identify the type of 8(a) contract opportunities being sought by description and corresponding North American Industrial Classification Code. This will constitute your request for approval of NAICS codes in which you are seeking 8(a) contract support. You should request approval of only those NAICS codes for which you have current capability and which are a logical progression of your primary industry classification. As you develop new capabilities, you may request approval of additional NAICS codes. Your BOS may question or require documentation of capability in certain NAICS codes outside of your primary industry classification.

The list below forecasts all targeted contract opportunities for the company's current and next fiscal year, based on our current knowledge of opportunities that would fit our selected NAICS code.
