Your Mission is What Drives Us

- Partnership with our clients
- Finding opportunities to improve your organizational effectiveness
- Meeting and beating deadlines and budgets
- Helping your organization free up resources so you can achieve your objectives

Capabilities

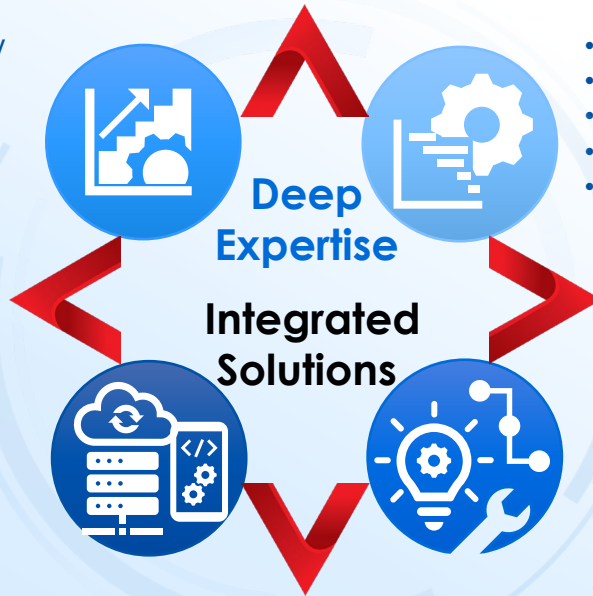

ISO 9001 Certification

Organizational Effectiveness

- Training design & delivery
- Change management
- Strategic planning
- Human capital solutions
- Acquisition strategy
- Business process re-engineering

Information Technology

- Cloud solutions, strategy, and support
- Modernization strategy and implementation
- Application development
- Systems engineering

Operations Support

- Program management
- Acquisition support
- Facilities & logistics
- Recruiting & HR
- Training support

R&D, Science, Engineering

- Aerospace engineering
- Laboratory support
- Hazmat monitoring, testing, and handling
- Instrument design, development, and calibration & maintenance

Much has happened at the GPO, and all of it very positive. Your critical look at us and recommendations really put us in a place to implement some positive changes. ...

...Helping us get to a place of identifying areas where we could focus more attention was very important to setting the stage for execution. ...

—Patricia S. Collins, Deputy Director, Government Publishing Office

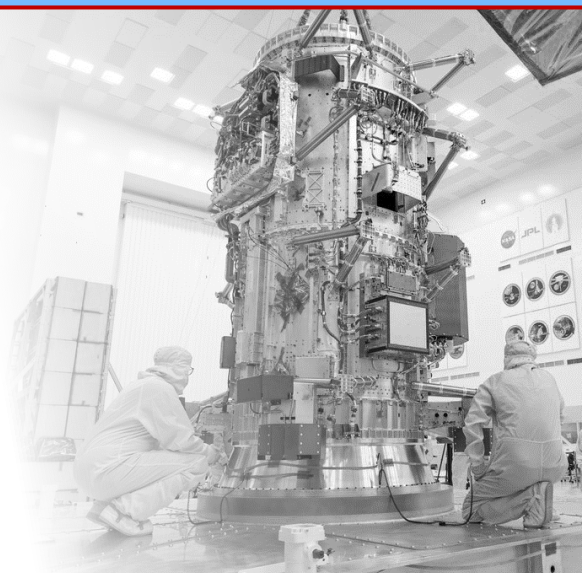

Probably one of the fastest and most professional resolutions I have ever experienced!! Today, I think there is no argument that we have seen a dip in the level of customer service across all areas of industry. It was just great to see someone who really cared, and who let you know you that were not alone in a rather difficult situation.

—Student at the Center for Domestic Preparedness

Aim for AdVantage

- > SBA-Approved Mentor Protégé Joint Venture with mentor, Vantage Systems, Inc.
- > Eligible for 8(a), EDWOSB, WOSB, and SB set-asides
- > Expands our base of past performance and capabilities:
 - Highly technical research & development, scientific, and engineering in the aerospace sector
 - Customers such as NASA GRC, NASA GSFC, and Johns Hopkins Applied Physics Laboratory
 - Contract values over \$150M
- > Approved accounting, estimating, and purchasing systems
