

## Company Overview

Founded in 2006, PKH Enterprises is a professional services firm that specializes in technology-focused policy development and implementation, strategic planning and advisory support, and Program Management. PKH offers the services of experienced professionals who combine policy and technical expertise to help government leaders tackle some of their biggest challenges. Our experience spans more than a decade of providing professional and management support services to Federal Government agencies.

## Core Competencies

- Insider Threat
- Controlled Unclassified Information
- Information Sharing and Privacy
- Technical Program Management
- Identity, Credential and Access Management (ICAM)
- Cloud and low-code app development
- Data Control and Protection
- Cyber Security
- Zero Trust
- Program Compliance

## PKH ADVANTAGES

### **Making Enterprise Cyber and Data Initiatives Work!**

We strengthen and grow your program by aligning policy and technology with the organizational process and initiative goals. Program alignment helps agencies justify and obtain funding, improves governmental oversight, enhances communication and performance of contractor teams, and makes our technical staff more effective.

- Certified cyber security, policy, and data governance experts
- Enterprise program management for the critical technology initiatives
- Top secret facility clearance
- Client-facing managers average over 24 years' experience.
- Proven team-player on contractor teams
- An ISO certified and CMMC registered provider organization

## Performance Examples

**DOD – OCIO - Zero Trust Portfolio Management Office (ZTPMO).** Senior advisory and program support to OCIO in the areas of ICAM and Zero Trust. Governance, Liaison, Strategy, and Architecture for the DoD enterprise. Supported the stand up of the DoD ZTPMO

**DOD - Army ServiceNow Application Development (USAREC)** Built a first of its kind custom servicenow app that served as an organizational change management tool and completely gamified the Army recruiting process resulting in a 30% increase in productivity.

**DOJ - Executive Office of the US Attorney (EOUSA).** Help build and run the Classified Standalone and the Insider Threat Prevention and Detection Program (ITPDP). Provides support across 25,000 endpoints and 248 supporting servers/systems, spanning 94 offices.

**DHS - Office of Security - Insider Threat Operations Center (ITOC).** Provide program management support, technical analysis, strategic communications, policy governance and implementation advisory services. Essential to the ITOC PMO expansion to unclassified systems and to effective program coordination across the DHS enterprise.

**DHS - US Immigration and Customs Enforcement (ICE).** Helped establish the Chief Data Officer Position, including ICE Data Strategy and Implementation Plan, ICE Data Governance Board, and DHS LE Data Governance. Worked on integrating computer security, legal, privacy and civil liberties issues in assessing new technology.

**DHS - Office of Intelligence and Analysis (I&A).** Program support, data governance, stakeholder engagement, and planning guidance for the PKI implementation for the DHS Secret Network and the DHS HSDN program. Supported mission-based decision making in management of Secret Network

**HUD - Cyber Security Professional Support Services:** We support HUD's Cybersecurity Transformation by strengthening Security Operations, advancing Vulnerability Management, and enhancing Governance, Risk, and Compliance processes. Our work includes developing performance metrics, dashboards, and supply chain risk management frameworks to bolster resilience against evolving threats.

## Proven Delivery Framework

Our PMO Framework has been developed over the years working at the formative stages for several major Federal initiatives. Our approach is grounded in our deep understanding of technology, government policy and organizational process. The sample approach includes:

**The Mission Phase.** Our program management approach integrates the various capabilities needed to work with key stakeholders to advance both the policy and the underlying technology to accomplish the initiative goals.

**The Planning Phase.** A key output of the planning phase is the Strategic Implementation Plan. It defines the mission, vision, goals, objectives, and strategies for the program. The are multiple plans and key document artifacts created at the step and further maintained through the initiative: including the Program Goals, Calendar, Schedule, and Governance Schedule.

**The Execution Phase.** Part of the Execution Phase is the application of our Execution Accountability Process which ensures our full performance of each task. This is typically a hybrid implementation of agile tools to enhance transparency and accountability.

**8a Direct Sole Source Process.** PKH Enterprises is an SBA 8(a) certified small business through August 2031. 8(a) Sole Source contract awards have a ceiling of \$4.5 million for professional services for civilian agencies. Procurements released under the Primary or Secondary NAICS code of the 8(a) vendor do not need SBA approval for NAICS designation. The primary NAICS code for PKH Enterprises is 541611.

### Benefits of Procuring through the shortened 8(a) Program

- Reduced Decision Cycle
- Streamlined Acquisition Process
- Prices Reflect the Best Value

### Basic Steps to the 8(a) Sole Source Procurement Process:

1. The Government Program Manager develops a statement of work, prepares the government estimate, and obtains necessary funding.
2. Through direct discussions and negotiations with PKH, the Government Program Manager selects PKH to perform the work and submits a procurement request to the agency Contracting Officer.
3. The Agency Contracting Officer submits Offer Letter to SBA for the designated scope of services. SBA processes Offer Letter and returns it to the Contracting Officer who submits the Statement of Work and Request for Proposal or Quotation (RFQ) to PKH Enterprises.
4. PKH Submits the proposal which is evaluated and negotiated (if necessary) by the agency and the contract is awarded.

### Please address the 8(a) Offering Letter to SBA Contact:
