

## About Us

Mighty House Inc., established in 2016, originally focused on government contracting and has since expanded into privacy-oriented IT and computing solutions, addressing digital privacy and data protection needs. The company is recognized as an Economically Disadvantaged Woman-Owned Small Business (EDWOSB) and participates in the SBA 7(a) and 8(a) programs, positioning itself to serve both governmental and private sectors effectively.

## Mission Statement

Mighty House Inc. is committed to providing maximal transparency and auditability to its clients through Free and Open Source Hardware, Firmware, and Software (FOSS) driven products. This commitment ensures the highest levels of integrity, consistency, reliability, and performance, aiding clients in navigating the complex landscape of privacy laws and regulations globally.

## Capabilities

The company offers a broad range of computing products, networking equipment, firmware, and software, including Linux and BSD mobile phones, tablets, laptops, desktops, workstations, and privacy-minded Internet of Things devices. Services extend to various SLAs, and products often come with Free, Libre, Open Source driven Hardware, Firmware, and Software, aimed at empowering users to reclaim privacy and control over their machines. Additional offerings include expert services for disabling the Intel Management Engine and providing minimal proprietary binaries with high-speed UEFI/BIOS Coreboot configurations .

## Certifications

Mighty House Inc. holds partnerships and reseller statuses with major technology providers like HP and Lenovo, enhancing its credibility and capability in providing cutting-edge technology solutions. The company also complies with a comprehensive range of U.S. state-specific privacy laws, ensuring their solutions are up-to-date with the latest privacy standards and regulations .

## Corporate Data

Mighty House Inc. has specialized in privacy-oriented IT and networking solutions since its inception in 2016. As an Economically Disadvantaged Woman-Owned Small Business (EDWOSB), it leverages certifications and partnerships to cater to both government and private sectors effectively. The company is continuously adapting to privacy laws and compliance requirements, making it a future-proof choice for clients.

## Distinctive Features

Mighty House Inc. differentiates itself by focusing on Free and Open Source Hardware, Firmware, and Software (FOSS), providing a level of transparency and auditability unmatched by competitors. This approach empowers clients to maintain high levels of data integrity and security, particularly under stringent privacy laws.
