## ABOUT US

D9Tech Resources LLC is a Certified Veteran Enterprise Service Disabled Veteran Owned Small Business. We provide innovative solutions in cyber security, IT systems engineering and program management to strengthen our customer’s ability to access and protect their most valuable data. With over 30 years of combined military and corporate experience, our team has the skills and knowledge to meet your toughest engineering challenges.

**DUNS:** 079407424

**NAICS:** 541330, 519190, 541513, 541519, 541611, 541618, 541990, 561110, 561621, 611420, 611430

### Cyber Security

We work with our customers to identify critical security risks and develop a comprehensive strategy to protect essential infrastructures from outside threats while ensuring security policies are in compliance with industry standards and best practices.

- » **Secure Network Design**
- » **Information Assurance**
- » **Risk & Threat Assessment**
- » **Vulnerability & Penetration Analyses**
- » **Computer Network Defense**
- » **CERT Operations Management**

### IT Systems Engineering

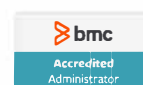

We apply standard engineering and planning practices along with innovative thinking to build mission-critical infrastructures tailored to meet our customer’s goals and improving efficiencies throughout the organization.

- » **Network Architecture & Design**
- » **System Evaluation & Integration**
- » **IT Systems Operations & Maintenance**
- » **Database Design & Administration**
- » **BMC Remedy ITSM Architecture**
- » **On-Site Technical Support**

### Program Management

Whether you’re deploying a complex technology system or enhancing your information security procedures, our team of highly experienced program managers will enable the successful delivery of our customer’s program requirements while maximizing ROI.

- » **Business Process Management**
- » **Cost Benefit Analyses**
- » **Executive Operations & Support**
- » **Training Support & Knowledge Management**
- » **Program & Task Planning**
- » **Content & Document Management**

# CAPABILITIES STATEMENT

## CONTRACTS

We provide support for the entire engineering and software development life cycle to deliver integrated technology solutions that are flexible and always secure. Our clients in the Department of Defense trust us to design, build, and maintain secure networks and communication systems while meeting their growing needs through the rapid deployment of new services and technologies.

### Defense Research and Engineering Network

**CONTRACT#:** N6600119C0117  
**POP:** 30 SEP 2019 - 29 SEP 2023  
**VEHICLE:** NIWC Pacific Enterprise Network, Technical & Professional Services

### Defense Research and Engineering Network

**CONTRACT#:** W912DY-17-R-0015  
**POP:** 22 OCT 2018 - 21 OCT 2019  
**VEHICLE:** Widescope Consulting & Contracting Services, LLC

### Program Management & Consulting Services

### Defense Research and Engineering Network
