

## OUR CUSTOMERS

Tripoint Solutions is proud to continually support the United States Army Corps of Engineers and the National Defense University.

## SUCCESS STORIES

- *Established and maintain a customized PMBOK-based Program Management Office.*
- *Dramatically improved data quality for USACE real property accountability data, resulting in significant improvements in timeliness and accuracy of real property and asset visibility.*
- *Enhanced security posture for three critical asset management applications to position for full accreditation through the DOD's Risk Management Framework.*

## OUR COMPANY

Tripoint Solutions (TPS) is a Virginia-based, SBA certified 8(a) small business that specializes in Business Information Services and Information Technology Consulting. The TPS name and logo represent a synergy of **People**, **Process**, and **Technology**; and our solutions integrate these key aspects, leading to more optimal and enduring solutions.

Our staff possesses over 100 years of experience providing solutions to DoD and Federal customers. Since we were founded in 2013, we have grown from 3 employees to over 25 staff located across 7 states. TPS has physical locations in Arlington, VA, Vicksburg, MS, Huntsville, and Mobile, AL.

## OUR CAPABILITIES

- *Program & Project Management*
- *Business Analysis & Process Engineering*
- *Asset Management*
- *Real Property Accountability*
- *Application Development*
- *Data Analytics*

## OUR BELIEFS

We challenge our customers to question the status quo, continually improve outcomes, and develop optimized business practices. TPS proactively supports our clients with robust dialog addressing their unique challenges, while delivering exciting solutions that encompass our three principal drivers: **People**, **Process**, and **Technology**.

## PEOPLE

Today's Federal Workforce is undergoing unprecedented change; critical experience and subject matter expertise are shrinking across the entire DoD and Federal sectors. Tripoint Solutions bridges this gap with a workforce fully enabled to address 21st century challenges

## PROCESS

Changes in leadership, staff attrition, compliance with laws and regulations, evolving best practices, and the constant barrage of "keeping up with change" can be a daunting challenge to any organization. Well-documented and institutionalized processes are the foundation of any successful institution. Tripoint Solutions understands that the best defense against an ever-changing environment is the development of a standard inventory of core business processes that act as the compass within each Government organization, creating stability and consistency across the enterprise.

## TECHNOLOGY

Too often, technology is seen as a stand-alone panacea, able to solve all of the problems facing an organization. Tripoint Solutions is an Information Technology company that uses technology as a tool that integrates the Process and People aspects within each business; and when leveraged in a coordinated and standardized methodology, can produce dramatic positive change within an organization.
