

Delivering Agile, Sustainable Solutions

E&E is an environmental consulting company based in Fort Walton Beach, Florida. We are committed to providing our clients environmental services that are both relevant and cost efficient. Our core values of quality, professionalism, customer service, responsiveness, sustainability, and safety are engrained in everything we do, from fieldwork and construction to interfacing with regulatory agencies.

E&E is a unique small business in that we have the in-house capabilities to provide a broad range of environmental and natural resource consulting services, conduct specialized field assessments, and perform site restoration and construction. We have the experience and agility to tackle dynamic projects under one umbrella and respond on short notice.
