Chenega Infinity, LLC is a Chenega Corporation-owned company providing professional Security Services in the federal marketplace. Chenega Corporation is an ANC pursuant to the 1971 federal Alaska Native Claims Settlement Act [commonly referred to as ANCSA] and the Village Corporation for the Native Village of Chenega. As the most successful Alaska Native Village Corporation, Chenega Corporation figures prominently in the diverse government services contracting marketplace. They are also in the forefront among other Alaska Native Corporations' service to their Shareholders and their community. Chenega Infinity's capabilities include:

**UNIFORMED SECURITY • LAW ENFORCEMENT • FORCE PROTECTION • ACCESS CONTROL • FIRE PROTECTION  
 ADVANCED LIFE SUPPORT • EMERGENCY MANAGEMENT • COMMAND CENTER OPERATIONS • RESOURCE PROTECTION  
 PHYSICAL SECURITY • POLICY DEVELOPMENT • SECURE WAREHOUSE OPERATIONS • ELECTRONIC SECURITY SYSTEMS  
 PROTECTIVE SERVICES TRAINING**

Chenega's achievements and distinguished record in providing solutions for customers with sensitive and unique security & safety requirements include:

- Largest provider of protective services for NASA which include security, law enforcement, fire services, emergency management, and operation of the NASA Protective Services Training Academy which develops and delivers law enforcement training and certification to all NASA commissioned law enforcement and security services personnel
- Largest provider of armed security services for the Department of Interior Bureau of Reclamation
- Largest provider of security services for DHS law enforcement training centers including the Department of Homeland Security Federal Law Enforcement Training Centers and the United States Secret Service
- Security Services for the DOE Office of Legacy Management
- Nationwide security services for the Centers for Disease Control
- Physical Security Program support for the US Army Corps of Engineers
- Multiple National Fire Protection Association Pro-Board Accredited Fire Protection services
- The management and operation of the DOE National Training Center including the mission-critical support function of developing, maintaining, and delivering standardized health, safety, safeguards, security, and protective force training for DOE and NNSA Federal and contractor employees - The NTC is the place where the standards for security excellence for DOE are developed and promulgated through training
- Long-term and contingency based force protection of our nation's military forces across the US and overseas including multiple and highly remote OCONUS Ballistic Missile Defense System sites
- Electronic Security Services for multiple agencies including nationwide services for the Department of State and FDA

We maintain a strong record of providing strategic and visionary ideas to our customers and we consider ourselves in full partnership with their communities and leadership. This includes our commitment as ambassadors in providing the highest level of protective services in support of their employees, contractors and visitors; ensuring the security of their critical assets; and supporting our customers through the evolution of their missions.
