# Our Services

**Cloud Security**

**FedRAMP 3PAO  
Services**

**Managed Security  
Services**

**Governance, Risk  
& Compliance**

**Proactive Security**

**Security Architecture  
& Engineering**

**Security Operations**

**[ We Specialize in One Thing:  
Cybersecurity. Period. ]**

# Cloud Security

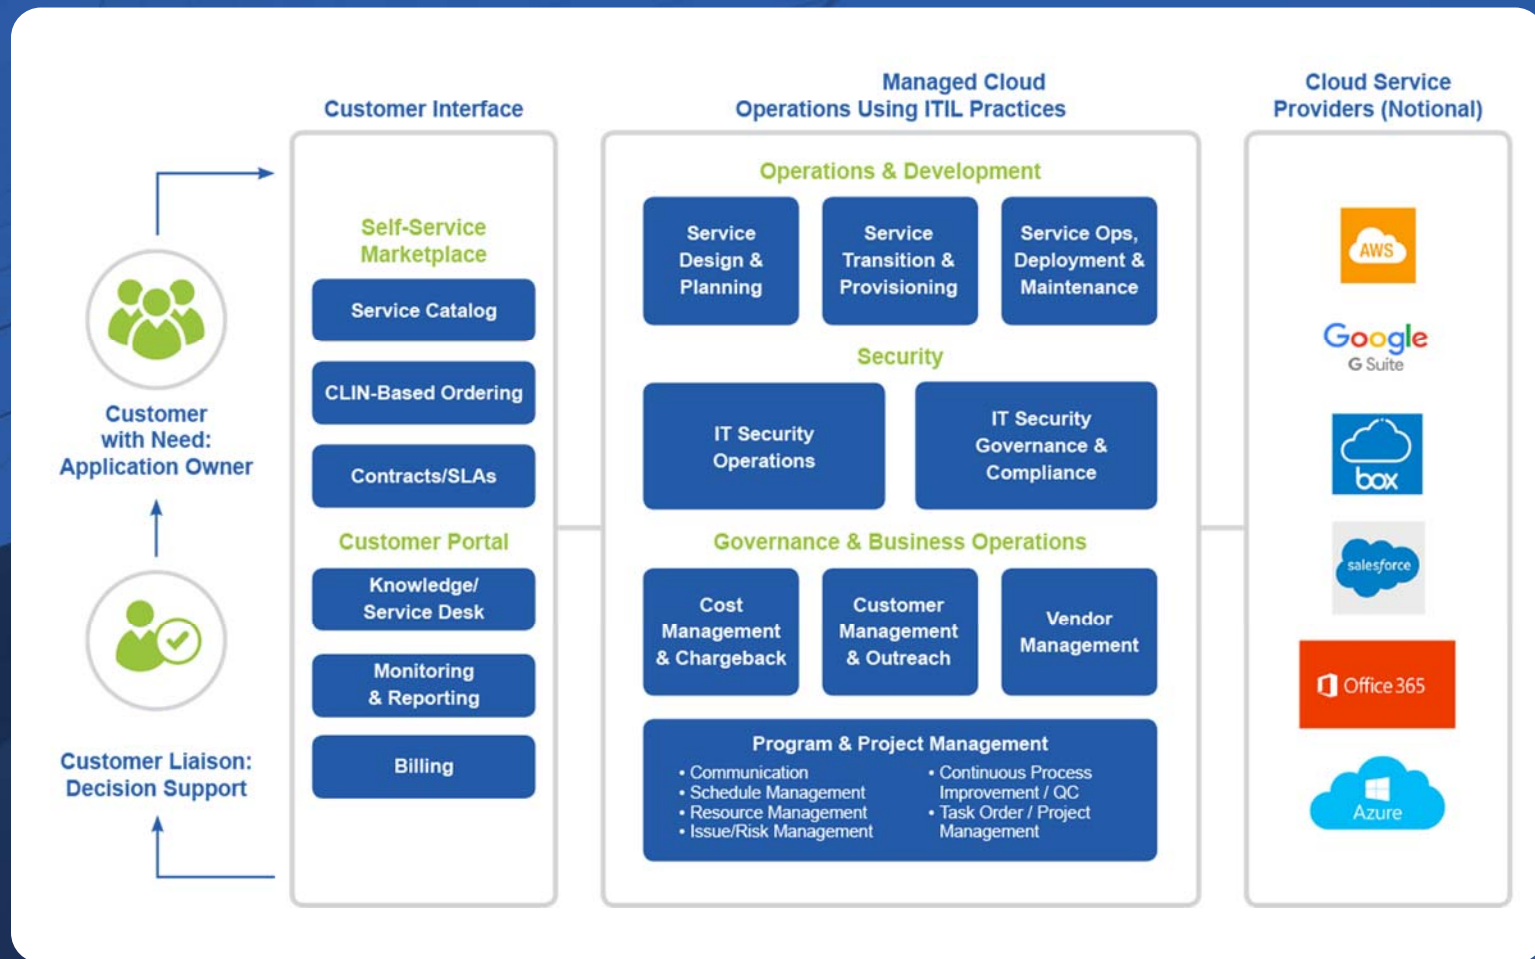

## Efficient | Elastic | SECURE

- **Security Engineering & Architecture** – Architect and engineer secure cloud environments through our Agile approach;
- **Application Security** – Improve the security of deployed applications;
- **Managed Security Service** – Build security monitoring capabilities into the cloud, integrate them with internal tools and ensure continuous monitoring;
- **Business Continuity & Disaster Recovery** – Account for business continuity requirements in system design;
- **FedRAMP 3PAO Service** – Assess and monitor your cloud service;
- **Security Compliance** – Meet compliance requirements.

*Cybersecurity. Period.*

# Agile/Secure Cloud Strategy

# FedRAMP 3PAO Services

MindPoint Group's singular focus in cybersecurity provides CSPs with a FedRAMP 3PAO team that has a deep understanding of cloud security, penetration testing, and the FedRAMP Security Assessment Framework (SAF). Our services include:

- **FedRAMP Readiness Assessment**
- **FedRAMP Readiness Consulting**
- **3PAO Assessment**
- **Continuous Monitoring**

- There are over 40 3PAOs on the FedRAMP marketplace list;
- Seven (7) of these companies are listed on the Cybersecurity500 list of the world's top cybersecurity companies. Of those seven;
- Three (3) are pure play firms that focus exclusively on cybersecurity; and of those three;
- **One (1) is actively pioneering federal cloud security for the government's largest cloud adoption program – MindPoint Group.**

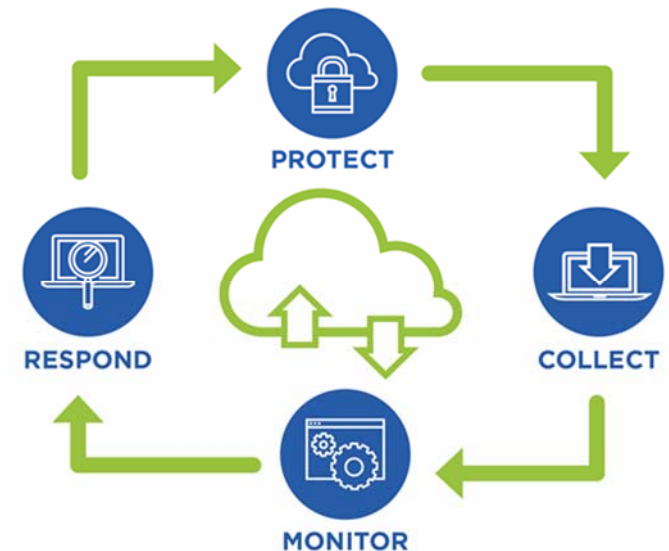

*We Specialize in One Thing:  
Cybersecurity. Period.*

# Managed Security Service

MSS helps accelerate cloud deployments by removing the burden of designing, implementing and staffing an effective security monitoring operation. Our Managed Security Services include:

- **Protect** - Web Application Firewall and Intrusion Detection
- **Collect** - Packet Capture and Log Aggregation
- **Monitor** - Security Information/Event Correlation and Expert Analysis
- **Respond** - Incident Handling and Intelligent Response

We Specialize in One Thing:  
*Cybersecurity. Period.*

# Governance, Risk & Compliance

MindPoint Group's security governance, risk and compliance support services center around a continuous monitoring methodology that assures the confidentiality, integrity, and availability of our client's information systems.

Our services include:

- **Business Continuity & Disaster Recovery**
- **Cloud Security Compliance**
- **Governance & Compliance**
- **Privacy**
- **Risk Management**

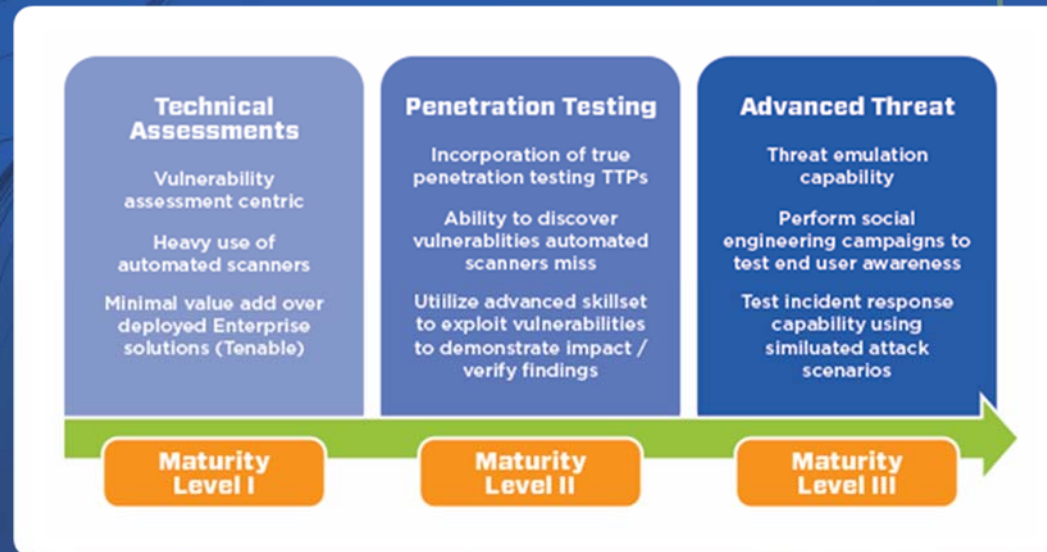

*We Specialize in One Thing:  
Cybersecurity. Period.*

# Proactive Security

Our Proactive Security services allow organizations to become aware of their vulnerabilities and understand what steps need to be performed in order to secure people, processes, and information. Our services include:

- **Technical Security Assessment**
- **Application Security**
- **Penetration Testing**
- **Social Engineering**

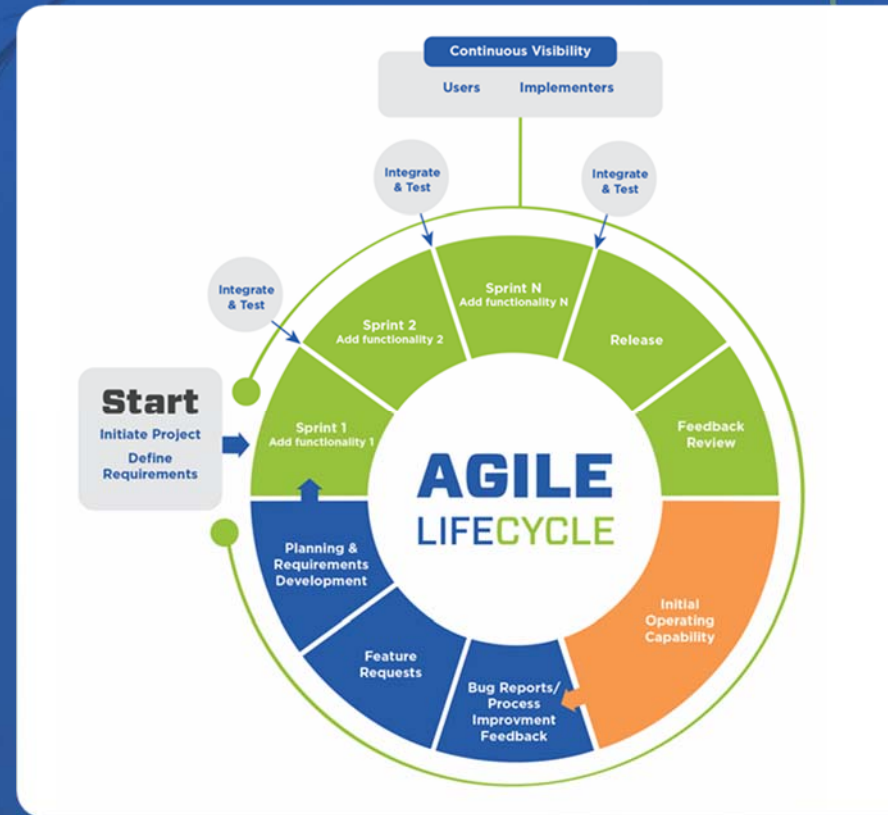

**[ We Specialize in One Thing: Cybersecurity. Period. ]**

# Security Architecture & Engineering

Our DevOps approach to Security Engineering delivers direct value to our customers by bringing a DevOps engineering culture that is in alignment with our overall lean management approach and focused on establishing a powerful engineering engine to drive value to organizational security detection and response functions. Our services include:

- **Security Architecture**
- **Security Engineering**
- **Decision Analysis & Resolution**
- **Configuration Management, Control Change & Automation**

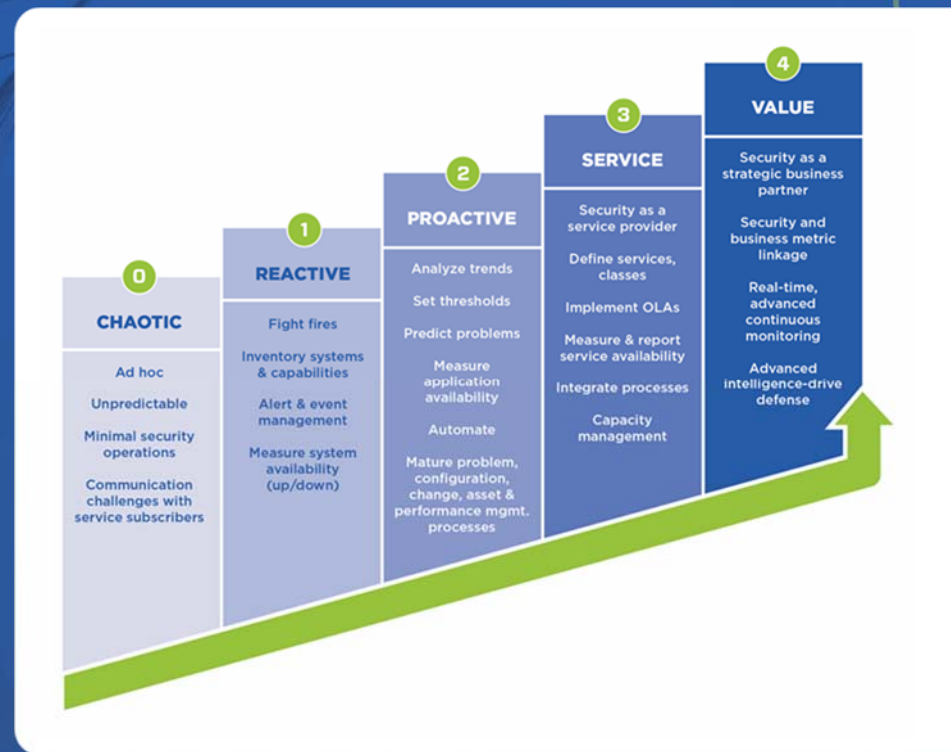

**[ We Specialize in One Thing:  
Cybersecurity. Period. ]**

# Security Operations

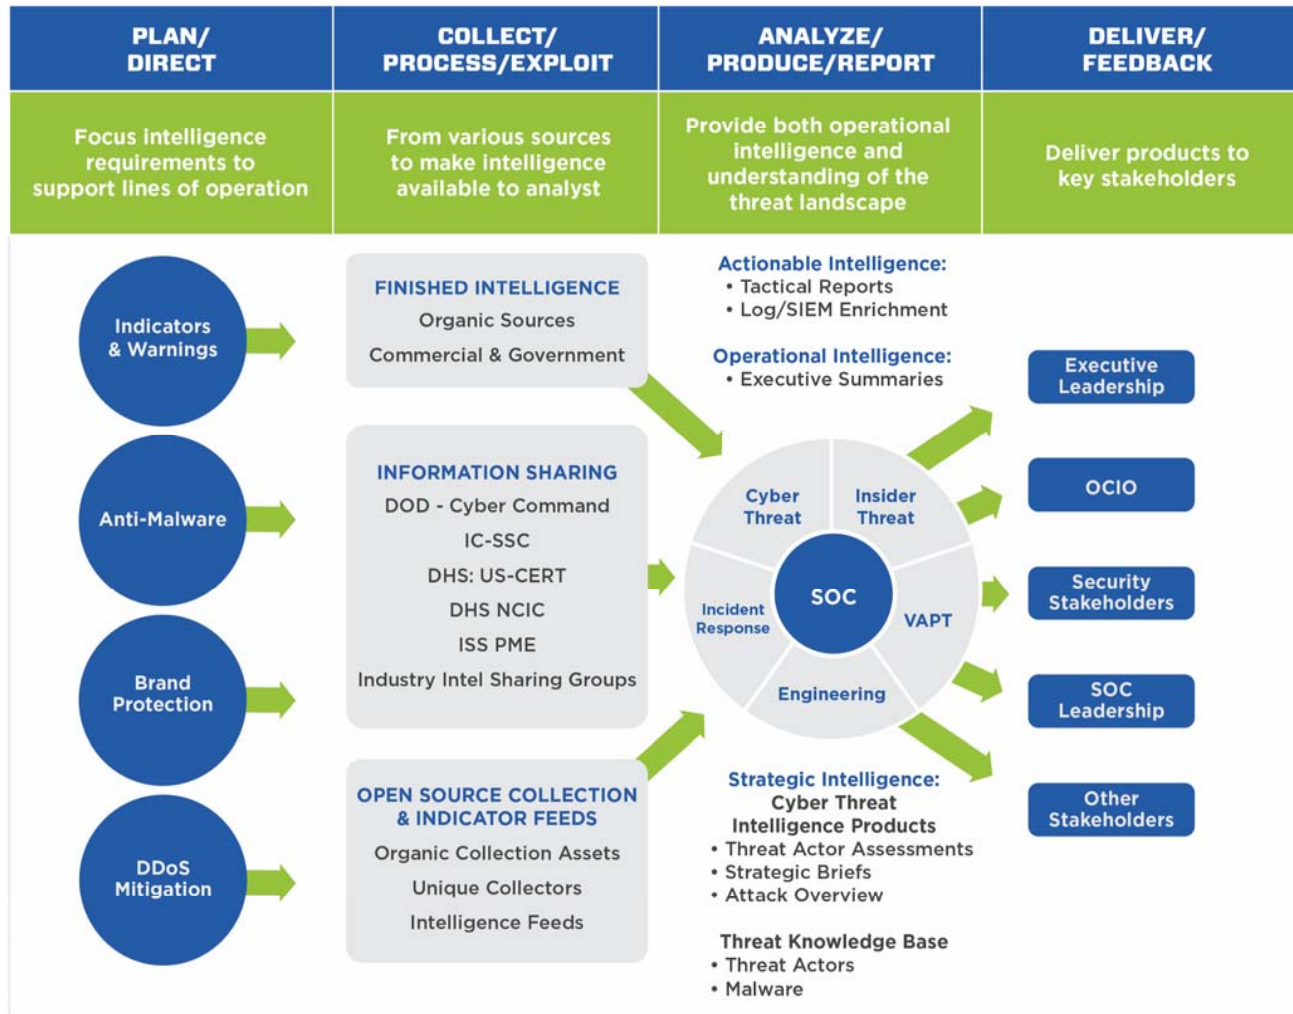

MindPoint Group has experience serving some of the highest profile targets in the world in defending against, detecting, and mitigating cyber attacks. Our services include:

- **Cyber Threat Intelligence**
- **Defensive Posture Assessment**
- **Incident Detection and Response**
- **Insider Threat Prevention and Detection**
- **Proactive Security**
- **Security Architecture & Engineering**

**[ We Specialize in One Thing:  
Cybersecurity. Period. ]**
