- 541519 - Other Computer Related Services
- 541990 - All Other Professional, Scientific, and Technical Services
- 541690 - Other Scientific and Technical Consulting Services
- 518210 - Data Processing, Hosting, and Related Services
- 541618 - Other Management Consulting Services
- 541611 - Administrative Management and General Management Consulting Services

PROJECT DESCRIPTION:

Centers for Disease Control and Prevention(CDC)

Administrative Support Services: AAlphident provides primary administrative support in a lead/back up position to the NCIPC/DOP Deputy Directors and Associate Director with complex organizational responsibilities.

US Dept. Of Transportation, Maritime Administration (MARAD),

Contract/Acquisition Support services: Alphident performs a variety of functions related to the procurement of supplies and services, ranging from Simplified Acquisitions to more complex multi-million-dollar negotiated acquisitions. Contracts/agreements are awarded and administered to support the programs of various field and headquarters offices of MARAD. Responsibilities involve solving significant problems complicated by interfaces and inter-relationships between and among programs, systems, functions, policies, and numerous critical issues.

US Internal Revenue Service (IRS)

Privacy Contract Assessments & Program Analysis: Alphident supports the IRS Privacy, Governmental Liaison and Disclosure (PGLD) organization with assessments of implementation of NIST privacy controls and risk analyses via the following: Schedule and Planning.

National Institutes of Health (NIH)/ National Institute of Mental Health (NIMH)

Operation & Maintenance of AiR: The Analysis of Integrated Resources (AiR) project provides budget tracking of intramural, research management services, and extramural costs. Alphident employed Agile/Kanban techniques to support the AiR grants system and the QlikView reporting/dashboard system.

US Social Security Administration (subcontract to CGI Federal)

IT System modernization: Alphident supported the following projects for the US Social Security Administration: Paperless Rewriting project; Modernization of The Enterprise Test Data Management System; Disability Claim Processing System; Enterprise Test Data Management System; Enumeration Verification Systems; Enterprise Metadata Repository systems; and, Office of Hearing and Appeal Agile software development (OHO Product).

US Department of Agriculture

Food and Nutrition Services Subject Matter Experts (SMEs): Alphident SMEs provide research, writing, and communication support nationwide concerning nutrition education through multiple media and delivery channels.

US Department of Homeland Security (DHS):

Innovation Lab RAVEN Platform: Alphident supports Agile development for ICE's RAVEN on various platform including Web and Mobile devices, the data analytics platform driving the HSI Innovation Lab. RAVEN leverages vast data holdings and custom analytic tools to streamline data ingestion, cleaning, structuring, comparison, and search.

Library of Congress (subcontract to BAE Systems)

Library system development: Alphident designed and developed fully accessible, 508 compliant Collection Development System (CDS) web application software by applying Agile/SCRUM, JEE, and Angular methods and technologies. Alphident provided technical oversight and lead the project's design, development, and testing. Technologies employed included AngularJS, Angular Router, Java, Spring and database MySQL. Alphident performed source code reviews, unit and integration testing, and regression and performance testing to ensure compliance with Web Content Accessibility Guidelines (WCAG 2.0) and 508.
