CLIENT SUCCESSES

Agency: US Department of Labor (DOL)

Helped Launch Modernization Effort

- Implemented BPMS cloud environment in less than 25% of the allocated time
- Developed agency-wide strategy to migrate legacy data to the Cloud
- Developed Cloud based Case Management System with cutting edge technologies like Appian, AWS
- Analyzed, assessed, implemented and monitored security controls for Cloud computing platform in less than two months
- Integrated legacy systems with Cloud-based systems to meet mission critical grant awards for H1B
- Formulated sequencing plans for modernization including estimating costs for Cloud-based systems and showing ROI
- Established and Managed Center of Excellence (CoE) for various Technologies at the Department level

Helped Meet Presidential Mandate

- Designed and implemented AWS Cloud BIG DATA platform to meet presidential mandate for Workforce Investments Opportunities Act (WIOA) successfully in less than three months
- Reduced processing time for the Quarterly Performance Reporting for Grants from three days to 10 minutes
- Collaborated with CIO's office for organizational standards and guidelines
- Helped determine program effectiveness using Big Data Analytics

Agency: Military Health System/ Veterans Affairs

Helped Launch Modernization Effort

- Redesigned and developed new Pharmacy module by integrating it with the Allergy module and enabled dispensing of the prescription medications based on patient allergies
- Developed and implemented patient notification service and reduced in bound patient inquiry calls by 50%
- Developed agency wide strategy to migrate legacy data to the Cloud
- Developed Clinical Data Marts to identify and develop disease trends
- Analyzed, assessed, implemented and monitored security controls in a complex military service model in less than two months

Helped Meet Operational Requirements

- Designed and implemented 3M Data Dictionary to meet data standard formats across MHS
- Developed ad hoc and canned reports to identify patients at risk based on vitals
- Implemented Care Coordination within the Military Treatment Facilities by tracking patients' health after discharged from the MTFs
- Collaborated with CIO's office for organizational standards and guidelines

Industry Partnerships

Appteon has partnership with industry leaders...

- Microsoft
- Oracle
- Informatica
- HP
- IBM
- EMC
- Appian
- Tableau
- Amazon Web Services
- SAP Business Objects
- AINS
- ServiceNow
