

CAPABILITY STATEMENT

www.infopactinc.com

Infopact, Inc. is a small business with 20 years' experience in IT modernization for the Department of Defense and Federal civilian agencies. We started our journey in 2004 by working with major integrators such as Oracle Corp., Accenture, IBM, and CSC (GDIT), and implemented several enterprise modernization projects for the federal government.

We have proven **prime** past performance in implementing **enterprise reporting systems and data analytics on cloud**, as well as enterprise resource planning (ERP) systems. We build **digital platforms** and provide application development, systems integration, and onsite agency financial and acquisition system Subject Matter Expert services. We leverage **AI/ML/NLP** technologies to build intelligent applications, integrate systems and data sources to generate insights for informed decision-making.

We are agile and use innovative methods to deliver quality. Infopact's motto, "Your projects are our passion!" highlights our commitment to our clients' success.
